1PAY ACTIVITIES

1. PAYMENT SERVICE

Customer problem

- Mobile developers find very hard to access to Telcos payment to sell their contents and services especially oversea merchants
- There is no provider who support all Telcos payment methods for mobile
- Merchants need an online platform to intergrate and manage their revenue
- Merchants have to wait for too long to get their money (after 30-60 days)

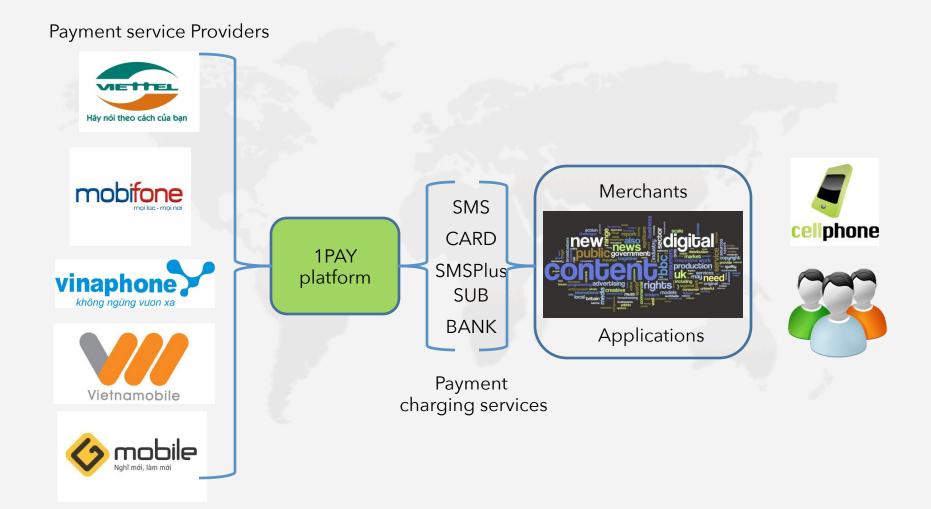

Our solution

- Support all local mobile payment methods
- Intelligent and useful dashboard and tools
- Automatic online platform
- Fast and flexible payment policy

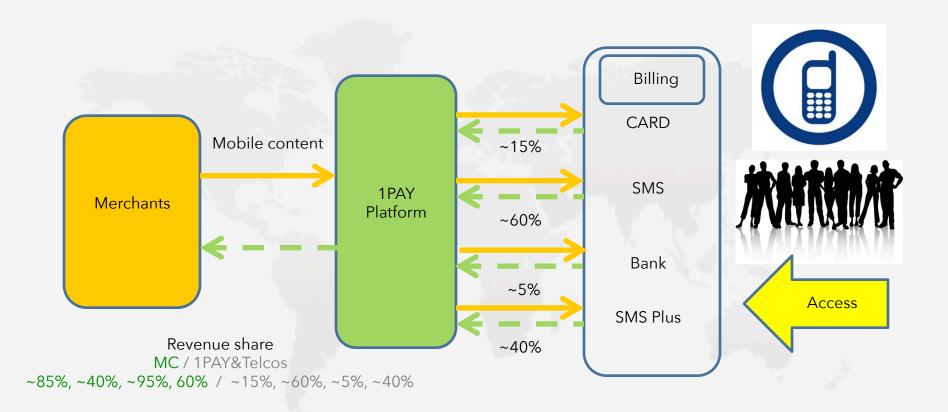

Our market

- Mobile VAS market in Vietnam: over 1 billion USD in revenue
- Total game revenue in Vietnam: 300 millions USD in billing
